

MOVING THE WORLD THROUGH AUTONOMY

Welcome to our Company News winter edition

Here is a selection of Embotech's updates around exciting partnerships, projects, and events.

In the Spotlight

Happy 10th birthday, Embotech!

There are many milestones we have achieved together and now is the time to celebrate. A big thank you to everyone who has been part of our journey. Here's to ten years of Automation Systems and countless more to come!

HAPPY BIRTHDAY

embotech 

Here is a little teaser...

We have some exciting news to share with you, and soon!

Right at the turn of the year, we will be announcing something that does not only have a significant impact on our company but on the industry as a whole. Stay tuned :)

Partnership Projects

Development of a sustainable ACC with partner ZF

- up to 8 percent more range in real-world driving

Embotech's MPC optimization algorithm forms the core component of [ZF](#)'s Eco Control 4 ACC, a predictive adaptive cruise control system. The ACC can make driving more comfortable, but also enable energy savings and increase electric range through more efficient driving strategies.

[Learn more...](#)

Embotech joins SAFE20 consortium

Embotech as a new associated partner in [SAFE20](#): As part of the German Safe20 project, our PRODRIVER virtual driving software is a key building block for the safe and precise control of fully autonomous vehicles and a further step towards yard automation.

Corporate news

Hosting our first "Tech Showcase" event

30 companies from all over Europe plus our partners [Terberg](#), [Spezialfahrzeuge](#) and [Arnold NextG](#) joined us for a first-hand experience of autonomous driving in a simulated port environment. [Find out more...](#)

Growth in motion: new office location, new test vehicle.

As you know, we are using we are using the test site at [Switzerland Innovation Park Zurich \(IPZ\)](#), for our indoor and outdoor testing. Now, the story goes on: not only do we have a new office location at IPZ but we have also expanded our test vehicle fleet. Meet the Embotruck!

Other milestones achieved

Autonomous Truck Innovation Receives CHF 2.4M Grant: Breaking through a competitive landscape with a remarkable 7% success rate, we've been triumphantly awarded a CHF 2.4M grant through [Innosuisse' Swiss Accelerator Grant](#). With this funding, we embark on a groundbreaking mission to deliver the world's first autonomous truck with an ISO26262 safety certificate. Infinite possibilities await us as we pave the way for the future of logistics!

Our [latest granted patent](#) has marked another significant milestone in our development of Autonomous Driving technology, which is poised to revolutionize the vehicle automation industry. Find out more in the [public patent search](#).

Job Openings

- [Senior Functional Safety Engineer](#)
- [Numerical Software Engineering Internship](#)
- [Autonomous Driving Systems Internship](#)
- [Autonomous Driving Perception Internship](#)
